ABOUT ME

Driven and highly motivated professional with a strong passion for UI/UX design, proficient in both frontend and backend development, and aspiring to excel as a versatile full-stack developer. Committed to embracing new challenges and continuously enhancing my skillset by mastering cutting-edge frameworks. Enthusiastic about collaborative teamwork and adept at problem-solving, always eager to provide assistance and support to fellow team members in achieving shared objectives.

WORK EXPERIENCE

2014 - 2022

EmeterEnergy

Cloud Storage Developer

1. An important part of my work was setting up, connecting, and maintaining energy monitoring systems. This included configuring and managing energy monitoring systems to collect and analyze energy consumption data, ensuring the proper functioning and accuracy of the monitoring equipment, and providing continuous support and maintenance to optimize system performance.

2. I actively participated in the development and support of cloud storage solutions. My main task was to create and optimize cloud-based data storage systems, ensuring their scalability and efficient management of data in the cloud.

2011 - 2013

ITATp

Developer

1. Acquired extensive experience in web interface development, utilizing PHP, OOP, MVC, MySQL, MongoDB, Javascript, JQuery, AJAX, HTML, and XML. Specialized in creating visually appealing and user-friendly websites for companies. The primary focus was on optimizing the design and functionality of the websites to achieve the desired outcome of attracting a larger client base and enhancing user engagement. Additionally, proficient in content management systems like WordPress, Joomla, Drupal, ShopCMS, and OpenCart, enabling seamless content updates and maintenance to keep the websites dynamic and relevant to the target audience.

2. Worked with high-level automation programming and SCADA (Supervisory Control and Data Acquisition) systems, including Master-SCADA, InTouch, Wonderware, TRACE MODE, Genesis, OptoDisplay, B-Scada, and WinCC, acquiring necessary skills in the process.

3. Programmed controllers from various manufacturers, such as OPTO22, Simatic, Omron, Schneider Electric, Fastwel, ABB, Rockwell Automation, Segnetics, and Honewell.

4. From 09.07.2012 to 29.07.2013, I focused on Strategic Marketing Development responsibilities while working in marketing, advertising, and market promotion for the company. My aim was to take the company to a new level in terms of customer base, striving to attract more clients and expand their numbers.
